**One thing I know / You gotta love your life / Love the love in you  
When the world's gone mad / And you're lost at sea / Under cold, cold stars so cruel  
Remember someone cares / Someone cares for you / Yes, it's true  
Like God and angels do / Protecting you / Protecting you**

**Sometimes things go wrong / And you don't know why / Or, which way is best for you  
When the road you are on / Just goes 'round and 'round / And your puzzle gives you  
answers so few / Remember someone cares / Someone cares for you / Yes, it's true  
Like God and angels do / Protecting you / Protecting you**

**Follow your heart / Follow on, your soul is part of all that's good above  
Follow on, you've always known you'd live the life you love  
Follow your heart / Follow your heart / Follow your heart**

**Instrumental - - -**

**The world will not end / Please believe me / We are all destined to be free  
They try to lock us down / They try, but what we do and where we go belongs to you  
and me**

**Follow your heart / Follow on, your soul is part of all that's good above  
Follow on, you've always known you'd live the life you love  
Follow your heart / Follow your heart / Follow your heart**
